

### Remarks

The specification has been amended to clarify the correct representations of the chiral centers in the amended structural formulae under the internationally accepted Cahn-Ingold-Prelog rules. More specifically, the formulae have been amended to clarify the incorrectly represented "wedge" bonds so that the formulae conform to the correctly designated "R", "S" and "R" stereochemical configuration. Applicants note that the correct "R", "S" and "R" designation appears in numerous instances in the application as filed, such as, for example, at page 10, line 35 – page 11, line 2; page 33, lines 19-22; page 35, lines 26-30; page 36, lines 2-5; page 37, line 14; page 50, lines 12-15; page 55, line 1; page 62, lines 17-18; page 64, lines 1-2; and claims 17 and 18.

### Conclusion
